RED HAWK

AI-POWERED CRIME PREVENTION

BY M&S SECURITY SERVICES

AI-DRIVEN SURVEILLANCE WITH HUMAN-RESPONSIVE ACTIONS.

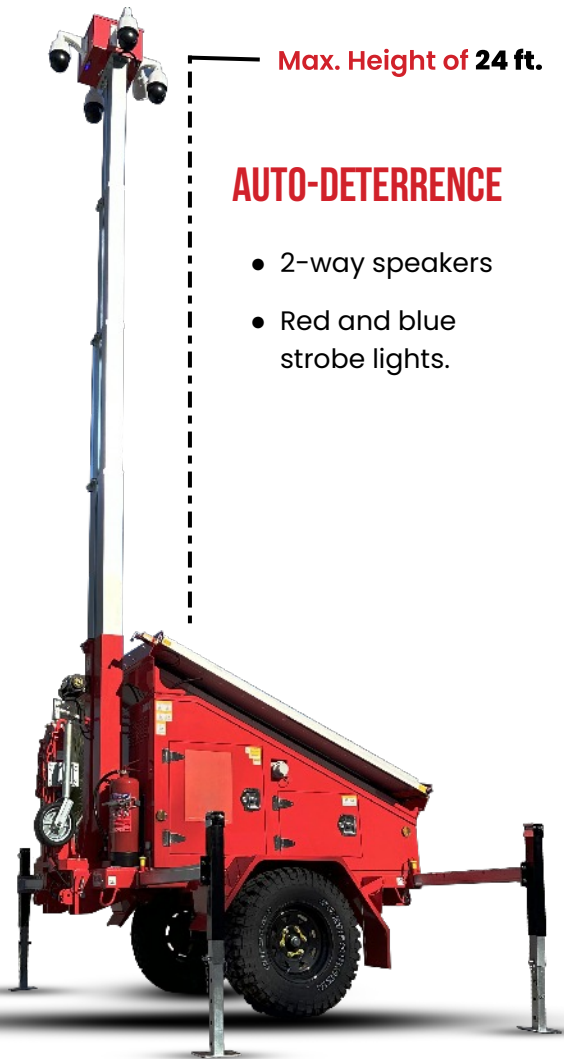

FEATURES

- Artificial-intelligence detection and analytics.
- Patter Recognition (recognizes high-risk zones).
- Cloud-based instant automated alerts (email, SMS/text).
- Managed control camera access. Your own security team can also monitor and use as needed.
- Live streaming and 24/7/365 recordings.
- Thermal analytics (clear nighttime viewing).
- Solar Powered w/ tamper-resistant battery backup.
- Battery backup lasts up to 72 hours.
- Cloud-based surveillance.

Why Red Hawk?

- Monitored 24/7/365 by real humans.
- Cost-efficient. (No false-alarm fees)

The **Red Hawk** is aimed to 'detect and deter' to prevent crimes before they happen. When real crimes are about to happen, units are dispatched and a verbal warning is announced over the speakers to warn trespassers.

AUTO-DETERRENCE

- 2-way speakers
- Red and blue strobe lights.
